Roi Yotvat

Full-stack developer, AI-driven development

roiyot261098@gmail.com · linkedin.com/in/roi-yotvat-874ba9209 · github.com/roiyot26

Full-stack developer building web applications and internal tools with LLM coding agents and agentic workflows, and bringing AI into how the team works. Grounded in React, Node.js and MongoDB, and I own the work end to end: requirements, implementation, testing and maintenance. Fluent in English.

EXPERIENCE

2026 – now

Full-stack developer · *creative and dev agency*

- Lead developer on full-stack projects for enterprise clients: custom WordPress (PHP, Gutenberg, ACF) and React / Next.js sites, from requirements through deployment and maintenance.
- Day-to-day contact with clients and third-party vendors: gathering requirements, coordinating integrations, resolving issues.
- Brought LLM coding agents (Claude Code) and custom AI tooling into the team's workflow, including a hybrid-search RAG assistant over MCP.
- Built and teach an internal web development course, with a full module on building with AI, delivered live to the whole creative team.

2022 – 2026

Full-stack developer and coding instructor · *software company and coding bootcamp*

- Developed and maintained client web apps with React, Node.js / Express and MongoDB.
- Taught multiple full-stack course cycles of 60–70 students each: JavaScript, React, Node.js, Express, MongoDB.

EDUCATION

2021 – 2022

Full-stack developer bootcamp
Intensive four-month program of self-led learning and team projects modelled on real dev teams. Front end (HTML, CSS, JavaScript, React) and back end (Node.js, Express, MongoDB).

SKILLS

Front end	JavaScript, TypeScript, React, Next.js, Redux, Vue.js, HTML, CSS / SCSS
Back end	Node.js, Express, REST APIs, MongoDB, Socket.io, PHP, WordPress
Infra and tools	AWS, CI/CD, Git
AI development	Claude Code, LLM-assisted coding, agentic workflows, AI code review, prompt engineering
Also	Technical writing, teaching and mentoring
Spoken	Hebrew (native), English (fluent)
